

**2011/65/EU (RoHS/WEEE Heavy Metals/Restricted Substances)
EN71/3:2002 (Safety of toys — Part 3: Migration of certain elements)
94/62/EC (Packaging Essential Requirements)**

Ritrama fully support all the new regulations and as “user” of chemicals has done everything necessary to ensure their suppliers are aware of the requirements concerning:

- EN 71/3:2002 and 94/62/EC.
- EU Directive 2011/65/EU (“RoHS” Directive, restricting PBB’s, PBDE’s and the heavy metals Cd,Hg,Pb,Cr (VI) in electrical and electronic equipment).
- European Court of Justice judgment of April 1, 2008 that the European Commission introduced in granting exemption to DecaBDE in the above RoHS Directive.

On the basis of suppliers declarations, with the exception of products made using our standard gloss red vinyl film, all Ritrama products comply with the above requirements – i.e. they do not intentionally contain any lead, cadmium, mercury and hexavalent chromium. The total level of these four metals is guaranteed to be less than 100ppm. As well as all Ritrama products are free from PBB or PBDE flame-retardants.

This statement concerns only self-adhesive laminate manufactured within Ritrama Group. It can not apply to any subsequently converted version of Ritrama products. For example – printed labels based on Ritrama laminates.

For further information please contact your Ritrama representative or mail us at info@ritrama.com.

The above information is given in good faith and is based on our present knowledge and experience with these materials, however no warranty expressed or implied is made.
